

TurnKey Mayan EDMS

Control Panel

Web Shell

Webmin

Adminer

Your TurnKey Mayan EDMS system has a few out of the box extras:

- Shell In a Box - Console access
 - Access by pointing your browser at: <https://your-ip-address:12320>
- Webmin - System administration
 - Access by pointing your browser at: <https://your-ip-address:12321>
- Adminer - Database administration (PostgreSQL)
 - Access by pointing your browser at: <https://your-ip-address:12322>

SSL - Certificates

Your self generated certificate is located:

```
ssl_certificate    /etc/ssl/private/cert.pem;  
ssl_certificate_key /etc/ssl/private/cert.key;
```

You can swap this out with one purchased from an online CA, or an internal CA
